

**Link**

The screenshot shows a web browser window with the title bar "Link". The address bar displays "File | D:/Kuliah/semester%202/Pemrograman%20Web/Tugas/Tugas%204/tugas%201/link.html#". Below the address bar, there is a toolbar with various icons. The main content area of the browser shows an HTML document. The document has a dark background with three colored circles (red, yellow, green) at the top. The HTML code is as follows:

```
<!DOCTYPE html>
<html>
<head>
    <title>Membuat Link</title>

            display: block;
            border: solid 1px blue;
            background-color: skyblue;
            text-decoration: none;

            border-radius: 3px;
            font-family: arial;
            font-weight: bolder;
        }
    </style>
</head>

The image shows two side-by-side code editors. The left editor displays the HTML code for the table, including the use of 'ganjil' and 'genap' classes for alternating row colors. The right editor displays the corresponding CSS styles.

The screenshot shows a web browser window with the title "List". The address bar indicates the file path: "D:/Kuliah/semester%202/Pemrograman%20Web/Tugas/Tugas%204/tugas%201/list.html#". The page content displays a navigation menu with the following structure:

```
